This application is in condition for allowance except for the following formal matters:

- 1) The first two pages of the specification contain a table of contents for the application.

Reference to page numbers in this table is inappropriate, as the printed patent would not correspond to such pagination. The references to page numbers must be removed to overcome this objection. Furthermore, it is suggested, but not required, that Applicants delete the table of contents, as such would not appear necessary in the printed patent.

- 2) No statement under 37 CFR § 1.821(f), that the sequence listing (paper copy) and the computer readable form of the sequence listing (CRF) are the same.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
